

according to Regulation (EC) No. 453/2010 MADE IN HOLLAND Date of issue: 15/05/2014

Revision date: 16/02/2015

Supersedes: 15/05/2014

Version: 2.1

SECTION 1: Identification of the	substance/mixture and of the company/undertaking
1.1. Product identifier	
Product form	: Mixture
Product name	: Rymax Atexio DCT
Product code	: lub005109
Product group	: Trade product
.2. Relevant identified uses of the	substance or mixture and uses advised against
.2.1. Relevant identified uses	
ntended for general public	
lain use category	: industrial use, professional use, consumer use
Jse of the substance/mixture	: Lubricant
unction or use category	: Lubricants and additives
.2.2. Uses advised against No additional information available	
.3. Details of the supplier of the sa	afety data sheet
Rymax b.v.	
Delweg 8 902 PJ Zevenaar	
The Netherlands	
nfo@rymax-lubricants.com	
el: +31 (0) 316-740856	
4. Emergency telephone number	
mergency number	: +31 (0)316 740 856 (Monday to Friday: 8:00 - 17:00)
SECTION 2: Hazards identification	on
2.1. Classification of the substance	er mixture
Classification according to Regulation (Not classified	EC) No. 1272/2008 [CLP]
Classification according to Directive 67/ Not classified	548/EEC [DSD] or 1999/45/EC [DPD]
.2. Label elements	
	No. 1272/2008 [CLP]
abelling according to Regulation (EC) I	
abelling according to Regulation (EC) I Precautionary statements (CLP)	: P102 - Keep out of reach of children
abelling according to Regulation (EC) I Precautionary statements (CLP)	
abelling according to Regulation (EC) I Precautionary statements (CLP)	 P102 - Keep out of reach of children EUH208 - Contains C14-18 alpha-olefin epoxide, reaction products with boric acid, Ethanol, 2,2'-iminobis, N-tallow alkyl derivatives, 2-Ethylhexyl methacrylate. May produce an allergic reaction
abelling according to Regulation (EC) I recautionary statements (CLP)	 P102 - Keep out of reach of children EUH208 - Contains C14-18 alpha-olefin epoxide, reaction products with boric acid, Ethanol, 2,2'-iminobis, N-tallow alkyl derivatives, 2-Ethylhexyl methacrylate. May produce an allergic
abelling according to Regulation (EC) I recautionary statements (CLP) UH-statements	 P102 - Keep out of reach of children EUH208 - Contains C14-18 alpha-olefin epoxide, reaction products with boric acid, Ethanol, 2,2'-iminobis, N-tallow alkyl derivatives, 2-Ethylhexyl methacrylate. May produce an allergic reaction
abelling according to Regulation (EC) I Precautionary statements (CLP) 30H-statements 3.3. Other hazards	 P102 - Keep out of reach of children EUH208 - Contains C14-18 alpha-olefin epoxide, reaction products with boric acid, Ethanol, 2,2'-iminobis, N-tallow alkyl derivatives, 2-Ethylhexyl methacrylate. Full text of R- and H-statements: see section 16

SECTION 4: First aid measures	
4.1. Description of first aid measure	S S
First-aid measures general	: Seek medical attention if ill effect develops.
First-aid measures after inhalation	: Take victim to fresh air, in a quiet place, in an half laying position and if necessary take medical advice. Allow the victim to rest.
First-aid measures after skin contact	: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. High-pressure injection under skin may cause serious damage. Seek medical attention if ill effect or irritation develops.
First-aid measures after eye contact	 Remove contact lenses, if present and easy to do. Continue rinsing. Ensure adequate flushing of eyes by separating eyelids with the fingers. Obtain medical attention if pain, blinking, tears or redness persist.
First-aid measures after ingestion	: Consult a doctor/medical service if you feel unwell. If vomiting occurs spontaneously, keep head below the hips to prevent aspiration. Do not induce vomiting.
4.2. Most important symptoms and	effects, both acute and delayed
Symptoms/injuries after inhalation	: At normal ambient temperatures this product will be unlikely to present an inhalation hazard because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fumes resulting from thermal decomposition products occurs.
Symptoms/injuries after skin contact	: Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis. High pressure injection of product into the skin may lead to local necrosis if the product is not surgically removed.
Symptoms/injuries after eye contact	: Unlikely to cause more than transient stinging or redness if accidental eye contact occurs.
Symptoms/injuries after ingestion	: Bad taste. Unlikely to cause harm if accidentally swallowed in small doses, though larger quantities may cause nausea and diarrhoea.
Symptoms/injuries upon intravenous administration	: Unknown.
4.3. Indication of any immediate me	dical attention and special treatment needed
Treat symptomatically.	

SECTION 5: Firefighting measures		
5.1. Extinguishing media		
Suitable extinguishing media	: Carbon dioxide (CO2), dry chemical powder, foam. Water fog.	
Unsuitable extinguishing media	: Do not use a heavy water stream. Use of heavy stream of water may spread fire.	
5.2. Special hazards arising from the su	bstance or mixture	
Fire hazard	: Combustion generates : CO, CO2, POx, NOx, SOx, H2S.	
Explosion hazard	: Not expected to be a fire/explosion hazard under normal conditions of use.	
5.3. Advice for firefighters		
Precautionary measures fire	: Do not enter fire area without proper protective equipment, including respiratory protection	า.
01/06/2015	EN (English)	2/8

Protection during firefighting	: Use water spray or fog for cooling exposed containers.
recession during menymung	: Use self-contained breathing apparatus and chemically protective clothing.
Other information	: Prevent fire-fighting water from entering environment. Sweep up and remove to a suitable,
	clearly marked container for disposal in accordance with local regulations.
SECTION 6: Accidental release me	asures
.1. Personal precautions, protective e	equipment and emergency procedures
Seneral measures	: Spill area may be slippery. Prevent soil and water pollution. Prevent entry to sewers and public waters.
.1.1. For non-emergency personnel	
Protective equipment	: When the risk of skin exposure is high (e.g. when cleaning up spillages or if there is a risk of splashing) then chemical resistant aprons and/or impervious chemical suits and boots will be required. Use protective clothing.
mergency procedures	: Consider evacuation.
5.1.2. For emergency responders	
Protective equipment	: When the risk of skin exposure is high (e.g. when cleaning up spillages or if there is a risk of splashing) then chemical resistant aprons and/or impervious chemical suits and boots will be required.
Emergency procedures	: No specific measures are necessary.
5.2. Environmental precautions	
Dike for recovery or absorb with appropriate m	naterial. Notify authorities if product enters sewers or public waters. Prevent soil and water pollution. rses, underground or low areas. Contain any spills with dikes or absorbents to prevent migration and
.3. Methods and material for contain	ment and cleaning up
or containment	: Large quantities: Contain large spillage with sand or earth.
lethods for cleaning up	: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Take up large spills with pump or vacuum and finish with dry chemical absorbent.
Other information	: Use suitable disposal containers. Sweep up and remove to a suitable, clearly marked container for disposal in accordance with local regulations. On water, recover/skim from surface and pou out in disposal container.
.4. Reference to other sections	
For further information refer to section 13.	
SECTION 7: Handling and storage	
.1. Precautions for safe handling	
statistic and the second of the second se	
Additional hazards when processed	not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or

recautions for safe handling lygiene measures	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse.
Precautions for safe handling Hygiene measures	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse.
Precautions for safe handling Hygiene measures .2. Conditions for safe storage, inclure echnical measures	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse.
Precautions for safe handling Hygiene measures C.2. Conditions for safe storage, inclus echnical measures Storage conditions	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse. ding any incompatibilities Keep container tightly closed and in well ventilated place.
Precautions for safe handling Hygiene measures 2. Conditions for safe storage, inclu e echnical measures Storage conditions noompatible products	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse. ding any incompatibilities Keep container tightly closed and in well ventilated place. Store in original container.
Precautions for safe handling Hygiene measures 2. Conditions for safe storage, inclu e Technical measures Storage conditions Incompatible products Maximum storage period	 not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse. ding any incompatibilities Keep container tightly closed and in well ventilated place. Store in original container. Reacts vigorously with strong oxidizers and acids.

No additional information available

Rymax Atexio DCT Safety Data Sheet according to Regulation (EC) No. 453/2010

SECTION 8: Exposure controls	personal protection
3.1. Control parameters	
Distillates (petroleum), hydrotreated	
Belgium Limit va	lue (mg/m ³) 5 mg/m ³
Exposure-value for oil mist	: 10 mg/m3 (15 min.) or 5 mg/m3 (8 hours).
3.2. Exposure controls	
Appropriate engineering controls	: Large quantities: Contain large spillage with sand or earth.
Personal protective equipment	: Gloves. In case of splash hazard: safety glasses. Eye protection should only be necessary where liquid could be splashed or sprayed.
Materials for protective clothing	: PVC gloves. Neoprene or nitrile rubber gloves
Hand protection	: In case of repeated or prolonged contact wear gloves. The gloves should be replaced immediately in case of damage or signs of wear. It is recommended to use preventative skin protection (skin cream). The protection glove should be tested for its specific suitability (e.g. mechanical strength, product compatibility, anti-static properties).
Eye protection	: Eye protection should only be necessary where liquid could be splashed or sprayed
Skin and body protection	No special clothing/skin protection equipment is recommended under normal conditions of u Avoid repeated or prolonged skin contact. If repeated skin contact or contamination of clothin is likely, protective clothing should be worn. Equipment should conform to EN 166.
Respiratory protection	: Respiratory protective equipment is not normally required where there is adequate natural or local exhaust ventilation to control exposure. Where excessive vapour, mist, or dust may resulve approved respiratory protection equipment. Respiratory protective equipment must be checked to ensure it fits correctly each time it is worn. Provided an air-filtering/air-purifying respirator is suitable, a filter for particulates can be used for mist or fume. Use filter type P or comparable standard. A combination filter for particles and organic gases and vapours (boil point >65°C) may be required if vapour or abnormal odour is also present due to high product temperature. Use filter type AP or comparable standard.
Environmental exposure controls	: See Heading 12. See Heading 6.
Consumer exposure controls	: PVC gloves. Neoprene or nitrile rubber gloves.
Other information	: Do not put the product-soaked rags into the pockets of working clothes. Do not use cloths stained with the product to dry hands. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not eat, drink or smoke during use. Wash contaminated clothing before reuse.
SECTION 9: Physical and chen	nical properties
0.1. Information on basic physica	
Physical state	: liquid
Appearance	: Oily. liquid.
Colour	: Amber.

Colour	:	Amber.
Odour	:	characteristic.
Odour threshold	:	no data available
рН	:	no data available
Relative evaporation rate (butylacetate=1)	:	< 0,1
Melting point	:	<= -39 °C.
Freezing point	:	no data available
Boiling point	:	> 280 °C.
Flash point	:	143 °C.
Auto-ignition temperature	:	> 240 °C.
Decomposition temperature	:	no data available
Flammability (solid, gas)	:	no data available
Vapour Pressure 20°C	:	< 0,1 hPa
Relative vapour density at 20 °C	:	> 1 (air=1)
Relative density	:	no data available
Density	:	0,845 - 0,855 kg/l

according to Regulation (EC) No. 453/2010

Solubility	: insoluble in water.
Log Pow	: >3
Viscosity, kinematic	: 50 - 100 cSt
Viscosity, dynamic	: no data available
Explosive properties	: no data available
Oxidising properties	: no data available
Explosive limits	: 0,6 - 7 vol %
9.2. Other information	
VOC content	: 0%
Other properties	: Gas/vapour heavier than air at 20'C.

SECT	ION 10: Stability and reactivity
10.1.	Reactivity
Stable u	inder normal conditions of use.
10.2.	Chemical stability
Stable u	inder normal conditions.
10.3.	Possibility of hazardous reactions
Refer to	section 10.1 on Reactivity.
10.4.	Conditions to avoid
Moisture	e. Overheating.
10.5.	Incompatible materials
Strong of	oxidizing agents. strong acids.
10.6.	Hazardous decomposition products
No addi	tional information available

No additional information available

SECTION 11: Toxicological informat	ion
11.1. Information on toxicological effects Acute toxicity	: Not classified (Based on available data, the classification criteria are not met)
Distillates (petroleum), hydrotreated heavy p	
LD50 oral rat	> 5000 mg/kg
LD50 dermal rat	> 5000 mg/kg
LC50 inhalation rat (mg/l)	> 5,53 mg/l
Reaction products of Benzeneaminephenyl-	with nonene (branched) phenyl- with nonene (branched) (36878-20-3)
LD50 oral rat	> 5000 mg/kg (OECD 401 method)
LD50 dermal rat	> 2000 ml/kg (OECD 402 method)
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitisation	: Not classified
Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified
Specific target organ toxicity (single exposure)	: Not classified
Specific target organ toxicity (repeated exposure)	: Not classified
Aspiration hazard	: Not classified
Rymax Atexio DCT	
Viscosity, kinematic	50 - 100 mm²/s
Other information	Toxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the toxicology of similar products. Likely route of exposure: ingestion, skin and eye.

SECTION 12: Ecological information	
12.1. Toxicity	
Ecology - general	: Ecotoxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the ecotoxicology of similar products.
Ecology - water	: This product floats on water and may affect the oxygen-balance in the water.

Rymax Atexio DCT

Safety Data Sheet

according to Regulation (EC) No. 453/2010

Distillates (petroleum), hydrotreated heavy paraffinic (64742-54-7)		
LC50 fish 1	100 mg/l	
EC50 Daphnia 1	10000 mg/l	
Reaction products of Benzeneaminephenyl- with nonene (branched) phenyl- with nonene (branched) (36878-20-3)		
LC50 fish 1	> 100 mg/l 96h; Brachydanio rerio (zebra-fish)	
EC50 Daphnia 1	> 100 mg/l EC50 48h - Daphnia magna [mg/l]	
ErC50 (algae)	> 100 mg/l 72h; Desmodesmus subspicauts	

12.2. Persistence and degradability

Rymax Atexio DCT		
Persistence and degradability	Not readily biodegradable.	
Reaction products of Benzeneaminephenyl- with nonene (branched) phenyl- with nonene (branched) (36878-20-3)		
Biodegradation	0 % Sturm - 28 days	
1,3,4-Thiadiazolidine-2,5-dithione, reaction p	roducts with hydrogen peroxide and tert-nonanethiol	
Biodegradation	2 % MITI - 28 days	
12.3. Bioaccumulative potential		
Rymax Atexio DCT		
Log Pow	> 3	
Bioaccumulative potential	This product is not expected to bioaccumulate through food chains in the environment.	
Reaction products of Benzeneaminephenyl-	with nonene (branched) phenyl- with nonene (branched) (36878-20-3)	
Log Pow	> 7,6	
Log Kow	7,3 Partition coefficient n-octanol/water [log Kow]	
1,3,4-Thiadiazolidine-2,5-dithione, reaction p	roducts with hydrogen peroxide and tert-nonanethiol	
Bioconcentration factor (BCF REACH)	9,4	
12.4. Mobility in soil		
Rymax Atexio DCT		
Ecology - soil	Not miscible with water. Spillages may penetrate the soil causing ground water contamination. This product floats on water and may affect the oxygen-balance in the water.

SECTION 13: Disposal considera	ations
13.1. Waste treatment methods	
Regional legislation (waste)	: Disposal must be done according to official regulations.
Waste disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations. Do not discharge into drains or the environment.
Additional information	: Hazardous waste.
Ecology - waste materials	: Every mixture with foreign substances such as solvents, brake- and cooling liquids is forbidden. Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. When not empty dispose of this container at hazardous or special waste collection point.

European List of Waste (LoW) code

: 13 02 05* - mineral-based non-chlorinated engine, gear and lubricating oils

SECTION 14: Transport information

In accordance with ADR / RID / IMDG / IAT	A / ADN	
14.1. UN number		
Not regulated for transport		
14.2. UN proper shipping name

453/2010 a

according to Regulation (EC) No. 453/2010	
12th Ordinance Implementing the Federal Immission Control Act - 12.BImSchV	: Is not subject of the 12. BlmSchV (Hazardous Incident Ordinance)
Netherlands	
SZW-lijst van kankerverwekkende stoffen	Distillates (petroleum), hydrotreated heavy paraffinic, Distillates (petroleum), solvent-dewaxed heavy paraffinic, 1,3,4-Thiadiazolidine-2,5-dithione, reaction products with hydrogen peroxide and tert-nonanethiol, Isooctadecanoic acid, reaction products with tetraethylenepentamine, Ethanol, 2,2'-iminobis, N-tallow alkyl derivatives are listed
SZW-lijst van mutagene stoffen	Distillates (petroleum), hydrotreated heavy paraffinic, Distillates (petroleum), solvent-dewaxed heavy paraffinic, 1, 3, 4-Thiadiazolidine-2, 5-dithione, reaction products with hydrogen peroxide and tert-nonanethiol, Isooctadecanoic acid, reaction products with tetraethylenepentamine are listed
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Borstvoeding	: None of the components are listed
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Vruchtbaarheid	: None of the components are listed
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Ontwikkeling	: None of the components are listed
Denmark	
Classification remarks	: Emergency management guidelines for the storage of flammable liquids must be followed
Recommendations Danish Regulation	: Pregnant/breastfeeding women working with the product must not be in direct contact with the product
15.2. Chemical safety assessment	
No additional information available	

SECTION 16: Other information

Full text of R-, H- and EUH-statements:

Aquatic Chronic 3	Hazardous to the aquatic environment — Chronic Hazard, Category 3	
Aquatic Chronic 4	Hazardous to the aquatic environment — Chronic Hazard, Category 4	
Asp. Tox. 1	Aspiration hazard, Category 1	
Eye Irrit. 2	Serious eye damage/eye irritation, Category 2	
Skin Irrit. 2	Skin corrosion/irritation, Category 2	
H304	May be fatal if swallowed and enters airways	
H315	Causes skin irritation	
H319	Causes serious eye irritation	
H412	Harmful to aquatic life with long lasting effects	
H413	May cause long lasting harmful effects to aquatic life	
EUH208	Contains . May produce an allergic reaction	
EUH210	Safety data sheet available on request	
R36/38	Irritating to eyes and skin	
R38	Irritating to skin	
R52/53	Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment	
R53	May cause long-term adverse effects in the aquatic environment	
Xi	Irritant
