SECTION 4: First aid measures				
4.1. Description of first aid measures				
First-aid measures general	: Seek medical attention if ill effect develops.			
First-aid measures after inhalation	: Take victim to fresh air, in a quiet place, in an half laying position and if necessary take medi advice. Allow the victim to rest.			
First-aid measures after skin contact	: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. High-pressure injection under skin may cause serious damage. Seek medical attention if ill effect or irritation develops.			
First-aid measures after eye contact	: Remove contact lenses, if present and easy to do. Continue rinsing. Ensure adequate flushir of eyes by separating eyelids with the fingers. Obtain medical attention if pain, blinking, tears redness persist.			
First-aid measures after ingestion	: Consult a doctor/medical service if you feel unwell. If vomiting occurs spontaneously, keep head below the hips to prevent aspiration. Do not induce vomiting.			
4.2. Most important symptoms and eff	ts, both acute and delayed			
Symptoms/injuries after inhalation				
Symptomo/injunes alter initialation	: At normal ambient temperatures this product will be unlikely to present an inhalation hazard because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fum resulting from thermal decomposition products occurs.			
Symptoms/injuries after skin contact	because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fum			
	 because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fum resulting from thermal decomposition products occurs. Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis. High pressure injection of product into the skin may lead to 			
Symptoms/injuries after skin contact	 because of its low volatility. May be harmful by inhalation if exposure to vapour, mists or fum resulting from thermal decomposition products occurs. Unlikely to cause harm to the skin on brief or occasional contact but prolonged or repeated exposure may lead to dermatitis. High pressure injection of product into the skin may lead to local necrosis if the product is not surgically removed. 			

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures		
5.1. Extinguishing media		
Suitable extinguishing media	: Carbon dioxide (CO2), dry chemical powder, foam. Water fog.	
Unsuitable extinguishing media	: Do not use a heavy water stream. Use of heavy stream of water may spread fire.	
5.2. Special hazards arising from the	substance or mixture	
Fire hazard	: Combustion generates : CO, CO2, POx, NOx, SOx, H2S.	
Explosion hazard	: Not expected to be a fire/explosion hazard under normal conditions of use.	
5.3. Advice for firefighters		
Precautionary measures fire	: Do not enter fire area without proper protective equipment, including respiratory protection.	
Firefighting instructions	: Use water spray or fog for cooling exposed containers.	
Protection during firefighting	: Use self-contained breathing apparatus and chemically protective clothing.	
Other information	: Prevent fire-fighting water from entering environment. Sweep up and remove to a suitable, clearly marked container for disposal in accordance with local regulations.	

SECTION 6: Accidental release measures		
6.1.	Personal precautions, protective equi	pment and emergency procedures
General r	neasures	: Spill area may be slippery. Prevent soil and water pollution. Prevent entry to sewers and public waters.

Safety Data Sheet

according to Regulation (EC) No. 453/2010

6.1.1. For non-emergency personnel Protective equipment : When the risk of skin exposure is high (e.g. when cleaning up spillages or if there is a risk of splashing) then chemical resistant arons and/or impervious chemical suits and boots will be required. Use protective clothing. : Consider evacuation. Emergency procedures 6.1.2. For emergency responders : When the risk of skin exposure is high (e.g. when cleaning up spillages or if there is a risk of Protective equipment splashing) then chemical resistant aprons and/or impervious chemical suits and boots will be required. : No specific measures are necessary. Emergency procedures

6.2. **Environmental precautions**

Dike for recovery or absorb with appropriate material. Notify authorities if product enters sewers or public waters. Prevent soil and water pollution. Prevent liquid from entering sewers, watercourses, underground or low areas. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

6.3. Methods and material for conta	Methods and material for containment and cleaning up			
For containment	: Large quantities: Contain large spillage with sand or earth.			
Methods for cleaning up	: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Take up large spills with pump or vacuum and finish with dry chemical absorbent.			
Other information	: Use suitable disposal containers. Sweep up and remove to a suitable, clearly marked container for disposal in accordance with local regulations. On water, recover/skim from surface and pour out in disposal container.			
6.4 Reference to other sections				

For further information refer to section 13.

SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Additional hazards when processed	: Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly.
Precautions for safe handling	: Avoid prolonged and repeated contact with skin. May be dangerously slippery if spilled. Where contact with eyes or skin is likely, wear suitable protection. Do not eat, drink or smoke during use. Remove contaminated clothing and shoes.
Hygiene measures	: Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Handle in accordance with good industrial hygiene and safety practice. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Where contact with eyes or skin is likely, wear suitable protection. Wash contaminated clothing before reuse.
7.2. Conditions for safe storage, including	ng any incompatibilities
Technical measures	: Keep container tightly closed and in well ventilated place.
Storage conditions	: Store in original container.
Incompatible products	: Reacts vigorously with strong oxidizers and acids.
Maximum storage period	: 5 year
Storage temperature	: ≤ 40 °C.
Prohibitions on mixed storage	: Keep away from : oxidizing materials. strong acids.
Storage area	: Store at ambient temperature.
Special rules on packaging	: Keep container tightly closed and dry.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection			
8.1. Control parameter	8		
Distillates (petroleum), hyd	Irotreated heavy paraffinic (64742-54-7)		
Belgium Limit value (mg/m³) 5 mg/m³			
smeeroliën (aardolie), C15-30-, met waterstof behandelde uit neutrale olie verkregen (72623-86-0)			
USA - ACGIH	ACGIH TWA (mg/m ³)	5 mg/m³	
Exposure-value for oil mist	: 10 mg/m3 (15 min.) o	r 5 mg/m3 (8 hours).	
8.2. Exposure controls			
Appropriate engineering contr	ols : Large quantities: Con	tain large spillage with sand or earth.	
01/06/2015	EN (English)		3/8

Rymax Atexio III FS Safety Data Sheet

Personal protective equipment	: Gloves. In case of splash hazard: safety glasses. Eye protection should only be necessary where liquid could be splashed or sprayed.
Materials for protective clothing	: PVC gloves. Neoprene or nitrile rubber gloves
Hand protection	: In case of repeated or prolonged contact wear gloves. The gloves should be replaced immediately in case of damage or signs of wear. It is recommended to use preventative skin protection (skin cream). The protection glove should be tested for its specific suitability (e.g. mechanical strength, product compatibility, anti-static properties).
Eye protection	: Eye protection should only be necessary where liquid could be splashed or sprayed
Skin and body protection	: No special clothing/skin protection equipment is recommended under normal conditions of use. Avoid repeated or prolonged skin contact. If repeated skin contact or contamination of clothing is likely, protective clothing should be worn. Equipment should conform to EN 166.
Respiratory protection	Respiratory protective equipment is not normally required where there is adequate natural or local exhaust ventilation to control exposure. Where excessive vapour, mist, or dust may result, use approved respiratory protection equipment. Respiratory protective equipment must be checked to ensure it fits correctly each time it is worn. Provided an air-filtering/air-purifying respirator is suitable, a filter for particulates can be used for mist or fume. Use filter type P or comparable standard. A combination filter for particles and organic gases and vapours (boiling point >65°C) may be required if vapour or abnormal odour is also present due to high product temperature. Use filter type AP or comparable standard.
Environmental exposure controls	: See Heading 12. See Heading 6.
Consumer exposure controls	: PVC gloves. Neoprene or nitrile rubber gloves.
Other information	: Do not put the product-soaked rags into the pockets of working clothes. Do not use cloths stained with the product to dry hands. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not eat, drink or smoke during use. Wash contaminated clothing before reuse.
	and water before eating, drinking or smoking and when leaving work. Do not eat, drink or

SECTI	ON 9: Physical and chemical properties
0.1	Information on basic physical and chamical properties

9.1. Information on bas	sic physical and chemical properties	
Physical state	: liquid	
Appearance	: Oily. liquid.	
Colour	: Red.	
Odour	: characteristic.	
Odour threshold	: no data available	
рН	: no data available	
Relative evaporation rate (buty	ylacetate=1) : < 0,1	
Melting point	: <= -48 °C.	
Freezing point	: no data available	
Boiling point	: > 280 °C.	
Flash point	: > 199 °C.	
Auto-ignition temperature	: >240 °C.	
Decomposition temperature	: no data available	
Flammability (solid, gas)	: no data available	
Vapour Pressure 20°C	: < 0,1 hPa	
Relative vapour density at 20 $^\circ$	°C : > 1 (air=1)	
Relative density	: no data available	
Density	: 0,840 - 0,850 kg/l	
Solubility	: insoluble in water.	
Log Pow	: >3	
Viscosity, kinematic	: 50 - 100 cSt	
Viscosity, dynamic	: no data available	
Explosive properties	: no data available	
Oxidising properties	: no data available	
Explosive limits	: 0,6 - 7 vol %	

Safety Data Sheet

according to Regulation (EC) No. 453/2010

9.2.	Other information	
VOC co	ntent	: 0%
Other pr	operties	: Gas/vapour heavier than air at 20'C.
SECTI	ON 10: Stability and reactivity	
10.1.	Reactivity	
Stable u	inder normal conditions of use.	
10.2.	Chemical stability	
Stable u	inder normal conditions.	
10.3.	Possibility of hazardous reactions	
Refer to	section 10.1 on Reactivity.	
10.4.	Conditions to avoid	
Moisture	e. Overheating.	

10.5.Incompatible materialsStrong oxidizing agents. strong acids.

10.6. Hazardous decomposition products

No additional information available

SECTION 11: Toxicological information					
11.1.	Information on toxicological effects				
Acute toxicity		: Not classified (Based on available data, the classification criteria are not met)			

Distillates (petroleum), hydrotreated heavy paraffinic (64742-54-7)				
LD50 oral rat	> 5000 mg/kg			
LD50 dermal rat	> 5000 mg/kg			
LC50 inhalation rat (mg/l)	> 5,53 mg/l			
Skin corrosion/irritation	: Not classified			
Serious eye damage/irritation	: Not classified			
Respiratory or skin sensitisation	: Not classified			
Germ cell mutagenicity	: Not classified			
Carcinogenicity	: Not classified			
Reproductive toxicity	: Not classified			
Specific target organ toxicity (single exposure)	: Not classified			
Specific target organ toxicity (repeated exposure)	: Not classified			
Aspiration hazard	: Not classified			
Rymax Atexio III FS				
Viscosity, kinematic	50 - 100 mm²/s			
Other information	: Toxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the toxicology of similar products. Likely route of exposure: ingestion, skin and eye.			

SECTION 12: Ecological information				
12.1. Toxicity				
Ecology - general	Ecotoxicological data have not been determined specifically for this product. Information given is based on a knowledge of the components and the ecotoxicology of similar products.			
Ecology - water	This product floats on water and may affect the oxygen-balance in the water.			
Distillates (petroleum), hydrotreated heavy paraffinic (64742-54-7)				
LC50 fish 1	100 mg/l			
EC50 Daphnia 1	10000 mg/l			
smeeroliën (aardolie), C15-30-, met waterstof behandelde uit neutrale olie verkregen (72623-86-0)				
NOEC chronic algae	>= 100 mg/l 72h			
12.2. Persistence and degradability				
Rymax Atexio III FS				
Persistence and degradability	Not readily biodegradable.			

Safety Data Sheet

according to Regulation (EC) No. 453/2010

Rymax Atexio III FS				
Log Pow	> 3			
Bioaccumulative potential	This product is not expected to bioaccumulate through food chains in the environment.			
12.4. Mobility in soil				
Rymax Atexio III FS				
Ecology - soil	Not miscible with water. Spillages may penetrate the soil causing ground water contamination This product floats on water and may affect the oxygen-balance in the water.			

Results of PBT and vPvB assessment 12.5. No additional information available

Other adverse effects

12.6. No additional information available

SECTION 13: Disposal considerations				
13.1. Waste treatment methods				
Regional legislation (waste)	: Disposal must be done according to official regulations.			
Waste disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations. Do not discharge into drains or the environment.			
Additional information	: Hazardous waste.			
Ecology - waste materials	: Every mixture with foreign substances such as solvents, brake- and cooling liquids is forbidden. Empty containers retain product residue (solid, liquid, and/or vapor) and can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static electricity, or other sources of ignition. They may explode and cause injury or death. Empty containers should be completely drained, properly closed, and promptly returned to a drum reconditioner or disposed of properly. When not empty dispose of this container at hazardous or special waste collection point.			
European List of Waste (LoW) code	: 13 02 06* - Synthetic engine, gear and lubricating oils			

SECTION 14: Transport information

In accordance with ADR / RID / IMDG / IATA / ADN 14.1. **UN number** Not regulated for transport 14.2. UN proper shipping name Proper Shipping Name : Not applicable Proper Shipping Name (IMDG) : Not applicable Proper Shipping Name (IATA) : Not applicable Proper Shipping Name (ADN) : Not applicable Proper Shipping Name (RID) : Not applicable 14.3. Transport hazard class(es) ADR Transport hazard class(es) (ADR) : Not applicable IMDG Transport hazard class(es) (IMDG) : Not applicable ΙΑΤΑ Transport hazard class(es) (IATA) : Not applicable ADN Transport hazard class(es) (ADN) : Not applicable RID Transport hazard class(es) (RID) : Not applicable **Packing group** 14.4. : Not applicable Packing group (UN) Packing group (IMDG) : Not applicable Packing group (IATA) : Not applicable : Not applicable Packing group (ADN)

Rymax Atexio III FS Safety Data Sheet

Safety Data Sheet according to Regulation (EC) No. 453/2010					
Packing group (RID)	: Not applicable				
14.5. Environmental hazards					
Dangerous for the environment	: No				
Marine pollutant	: No				
Other information	: No supplementary information available				
14.6. Special precautions for user					
- Overland transport no data available					
- Transport by sea no data available					
- Air transport no data available					
- Inland waterway transport Not subject to ADN	: No				
- Rail transport Carriage prohibited (RID)	: No				
14.7. Transport in bulk according to Ann	nex II of MARPOL 73/78 and the IBC Code				
Not applicable					
SECTION 15: Regulatory informatio	n .				
15.1. Safety, health and environmental re	egulations/legislation specific for the substance or mixture				
15.1.1. EU-Regulations					
Contains no substances with Annex XVII restrictions Contains no substance on the REACH candidate list					
Contains no REACH Annex XIV substances					
VOC content	: 0%				
15.1.2. National regulations					
Germany					
VwVwS Annex reference	: Water hazard class (WGK) 3, severe hazard to waters (Classification according to VwVwS, Annex 4.)				
12th Ordinance Implementing the Federal Immission Control Act - 12.BImSchV	: Is not subject of the 12. BlmSchV (Hazardous Incident Ordinance)				
Netherlands					
SZW-lijst van kankerverwekkende stoffen	 Distillates (petroleum) hydrotreated light naphthenic, Distillates (petroleum), hydrotreated heavy paraffinic, smeeroliën (aardolie), C15-30-, met waterstof behandelde uit neutrale olie verkregen are listed 				
SZW-lijst van mutagene stoffen	 Distillates (petroleum) hydrotreated light naphthenic, Distillates (petroleum), hydrotreated heavy paraffinic, smeeroliën (aardolie), C15-30-, met waterstof behandelde uit neutrale olie verkregen are listed 				
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Borstvoeding	: None of the components are listed				
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Vruchtbaarheid	: None of the components are listed				
NIET-limitatieve lijst van voor de voortplanting giftige stoffen – Ontwikkeling	: None of the components are listed				
Denmark					
Classification remarks	: Emergency management guidelines for the storage of flammable liquids must be followed				
15.2. Chemical safety assessment					

No additional information available

SECTION 16: Other information

Safety Data Sheet

according to Regulation (EC) No. 453/2010

Full text of R-, H- and EUH-statements:

Asp. Tox. 1	Aspiration hazard, Category 1
H304	May be fatal if swallowed and enters airways
EUH208	Contains . May produce an allergic reaction
EUH210	Safety data sheet available on request
R65	Harmful: may cause lung damage if swallowed
Xn	Harmful

SDS EU (REACH Annex II)

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product
